

Time to Support HB 2403 – Online Public Notices

January 24, 2012 By Sonoran Alliance [Leave a Comment](#)

Imagine searching the internet and finding a hit on a public notice that catches your attention.

Imagine having a Google Alert trigger your attention toward an important public notice.

Now imagine being able to broadcast a public notice at a fraction of the cost that paper publications charge. Maybe even a paper publication you have profound ideological differences with.

This post is about supporting passage of HB 2403. This bill would allow online publications like Sonoran Alliance to post public notices at a fraction of the cost that other traditional news publications charge. You can also rest assured that your notice will be seen, read, searched and even archived.

Please support passage of HB 2403 by contacting your legislator today.
